Summary

Software Engineer and Java Technical Consultant with 3+ years of experience in Java, JEE, Spring Boot, REST APIs, SQL, and Angular. Experienced in developing and maintaining enterprise ERP applications, with a strong focus on backend development and system integration. Skilled in troubleshooting, testing, Docker, and CI/CD, with a focus on building reliable and scalable software solutions.

Skills

- **Programming Languages**

: Java , JEE , JavaScript, TypeScript
- **Backend & Architecture**

: Spring Boot, REST APIs, Microservices
Spring Security, Spring Data, Hibernate/JPA
- **Frontend**

: Angular, React.js, Next.js, HTML5, CSS3
- **Databases**

: PostgreSQL, MySQL
- **Version Control**

: GIT, GitHub
- **Operating Systems**

: Windows, Linux
- **Methodologies**

: Agile Scrum
- **DevOps**

: Docker, CI/CD basics, WildFly/JBoss
- **Tools & Technologies**

: Postman, Swagger, UML, Trello

Professional Experience

Technical Consultant Java JEE | UniQ Soft Technology | Dec 2024 — Present

- Analyzed business requirements and designed ERP features for the banking and financial sector in collaboration with functional teams.
- Prepared technical and functional specifications to translate business requirements into clear and efficient application solutions.
- Developed, integrated, and enhanced features using Java JEE, Spring , following microservices-based architecture principles.
- Improved application performance and automated financial and accounting processes.
- Troubleshoot technical issues, fixed bugs, and maintained existing ERP modules to ensure application reliability.
- Contributed to performance optimization, automation, and basic DevOps activities using Git, Maven, Docker, and CI/CD.
- Technologies:** Java, JEE, Spring Security, Spring Data, JBoss, WildFly, JUnit, MySQL, SQL Server, Docker.
